

Product Cut Sheet: Manual Shade System

Manual Roller Shades

A manually-operated shading solution that can enhance the aesthetics of a space, provide glare control, and allow occupants to access daylight and views. Ideal for motorized shading projects that also require manual solutions.

Features

- Geared clutch provides smooth operation.
- Aluminum tube: no rust stains on the fabric from cut tube ends.
- Shades are raised and lowered by means of a #10 stainless steel bead chain.
- Plastic bead chains are also available—colors include white and black.
- Spring loaded idle end.
- Hem bar is extruded aluminum and completely enclosed in a heat-sealed hem pocket.
- Non-handed brackets are stamped steel and corrosion resistant. Available in white and black.
- 3" fascia measures 3.395" high with a 1.5" bottom lip and snaps onto fascia bracket. 4" fascia and are also available. Available in white, anodized, or black.
- Covered by ShadeMonster standard warranty.

Fabric Options:

Solar - available in 4 opacities (1%, 3%, 5%, or 10%).

Blackout

Light Filtering

All fabric options are available in multiple colors.

IMPORTANT: ShadeMonster Chain Operated Roller manual shades must be mounted to blocking or other suitable structural material. It is the responsibility of the installer to choose and install fasteners that are appropriate for the mounting surface such that each shade bracket can support 200 lbs (90.1 kg).

Reverse roll

Chain Tensioning Safety Device

Wall Mount

Floor/Sill Mount

This shade is equipped with a pre-installed pull-chain tension device (meets ANSI/WCMA A100.1-2014 5.2.4 safety guidelines), designed to secure and maintain tension on the pull-chain loop. For safe operation of the window treatment, the installer must affix the device in an appropriate location according to the instructions packaged with the shade.

⚠ WARNING

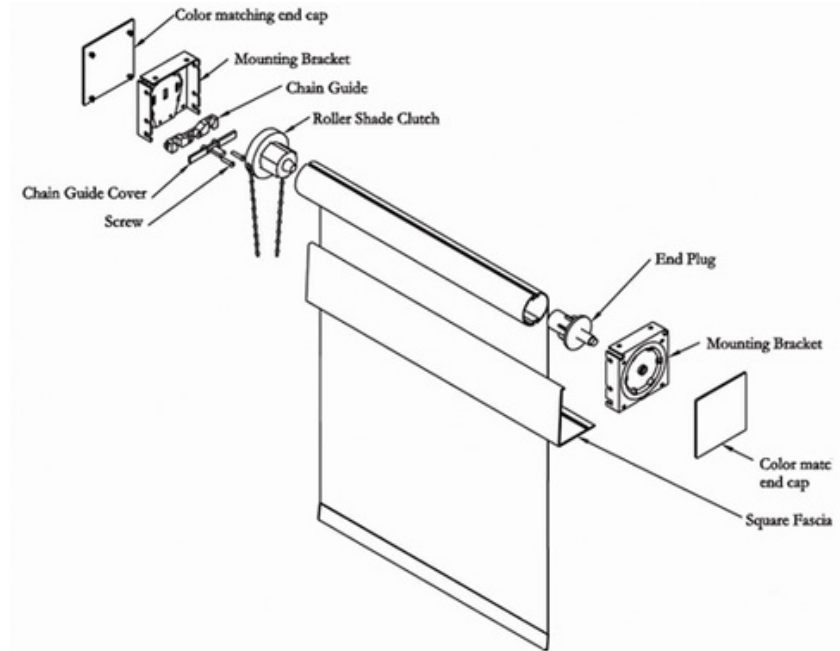

Window Blind Cord Can STRANGLE Your Child

- Children can climb furniture to reach cords.
- Move crib and furniture away.
- Keep all cords out of children's reach.
- Attach tension device to wall or floor.
- Fasteners provided with the tension device may not be appropriate for all mounting surfaces.
- Use appropriate anchors for the mounting surface conditions.
